DETAILED ACTION

Response to Amendment

The reply filed on September 06, 2005 is not fully responsive to the prior Office Action because of the following matter(s): the amended claims (especially claim 1) recite the subject matters that are not fully supported by the elected species. More specifically, full support is not found in the original disclosure for the subject matters directly recited in claim 1 that a metal and an insulator are deposited and patterned, or an insulator is deposited and patterned, on the recited islands to form a sidewall around each of the recited islands in the elected species of Species I (embodiment of Figs. 2a and 2b, with or without Figs. 5a-5h). Instead, the sidewall (6) in the elected species is formed of a metal layer alone. It is not clear what are the insulator's structure and functionality, how it is deposited and patterned, and/or what is its positional relationship with the recited metal sidewall, in the elected species. See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the correction in order to avoid abandonment. **EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).**
